Hydrafacial®

The Face of Hormonal Change Deserves a Smarter Solution

When oestrogen dips, your skin is usually the first to snitch.

We're talking volume loss, dullness, dehydration, fine lines – all showing up while you're still trying to work out if it's just "a bad week" or something more.

This isn't about panic or pretending you're 25. It's about recognising that your skin has changed and giving it what it actually needs.

So your hormones have changed?
in 2025, that's not a crisis, that's a cue.

Because confidence doesn't come from a serum or a slogan.

It comes from **consistency**, without judgement.

Welcome to the confidence club.

HYDRARUSH

In. Out. No small talk.

This is your 45-minute express fix. It hydrates, extracts and polishes fast – for the kind of day when you need to look like you’ve been doing yoga, journaling and getting 8 hours, but all you’ve done is cancel plans and panic-eat hummus.

For faces that are legally obligated to look functional.

Ideal for:

- **Pre-holiday, pre-meeting or pre-photo moments**
 - **Busy people pretending they’re not chaotic**
 - **Skin that’s 80% fine but 20% feral**
 - **Regulars topping up between big treatments**
 - **Anyone who’d exfoliate in a car if they had to**

45-MINS

THE PLATINUM

This is the classic. The foundation.

A six-step protocol designed to deep-clean, extract, hydrate and protect the skin. With lymphatic drainage to de-puff, exfoliation to reset, painless extraction to unclog, and potent serums to seal the deal.

It's results-focused, backed by clinical tech and ideal for regular maintenance. Think of it as your skin's non-negotiable monthly appointment.

Ideal for:

- Monthly maintenance with clinical receipts
- Congestion, dullness or skin that's giving up mid-week
- Pre-anything prep when you don't want to commit to being nice
- People who want glowing skin but refuse to "manifest" it
- Pores that are acting out like they're on a stag do

60-MINS

PLATINUM LUXE

We enhanced the Platinum because your
face asked for it.

It's the full Hydrafacial with everything else your skin didn't
know it needed. Layered like a passive-aggressive onion of
clinical hydration
and surgical grade smugness.

Ideal for:

- Skin that's given up but wants to bounce back without explaining itself
- Pre-wedding, pre-holiday or pre-ghosting someone
- Monthly resetters who take their pores personally
- People who want their glow to trigger other people's insecurities

90-MINS

HYDRALIFT

This one brings backup.

We take the full Hydrafacial protocol and add ClearLift laser, delivering collagen-stimulating pulses beneath the skin with no downtime and no drama. It's clinical-level lifting disguised as a very bougie facial.

It hydrates, clears, brightens, tightens – all in one hit. Think of it as a wake-up call for skin that's been dragging itself through meetings, hormones, and half a decade of bad lighting.

For the kind of face that needs support and doesn't trust group chats to provide it.

Ideal for:

- **The in-between zone before injectables**
- **Those who want a PR team for their jaws**
- **Their skin so lifted it will ghost its own double chin**

90-MINS

HYDRAFILTER

This is for skin that's holding a grudge.

We come at it with sulphur, acids, extractions, high frequency and every tool in the Kaizen arsenal – no fluff, no candles, just old-school blemish warfare disguised as a medical treatment.

For when your skin is acting like it's still in its teen years and you're not emotionally equipped to parent it.

Ideal for:

- Breakouts, blackheads, and full-blown skin tantrums
- Hormonal flare-ups that ignore your skincare budget
- Those who've "tried everything" and still use wipes
 - Pores that deserve a formal intervention

60-MINS

HYDRASILK

This is your hard reset.

We combine the deep-cleaning, pore irrigating power of Hydrafacial with the ultra satisfying finish of dermaplaning to lift away dead skin cells, dullness and the build up of “I’ll deal with it later” skincare.

Expect texture so smooth, your moisturiser might slide off.

- **This treatment hits different for:**
- **Stubborn congestion**
- **Dull, uneven skin tone**
- **Makeup that never sits right**
- **Pre-event skin panic 48 hours before**

If you want to make your skincare shelf and your ex spiral into an identity crisis, this is for you.

90-MINS

HYDRASILK LUXE

This one's just showing off.

A treatment built around dermaplaning, deep hydration and texture correction, HydraSilk Luxe isn't here to solve a crisis – it's here to keep you smug. The finish is stupidly smooth. Light reflects. Fingers linger. Your moisturiser will slip off if it's not emotionally prepared.

For the kind of face that makes other faces feel unprepared.

Ideal for:

- **Texture that's not bad, just annoying**
- **Dullness that's hanging around like a bad date**
- **Pre-event polish with zero recovery time**
- **People who want to be smooth in one area of life**

105-MINS

HYDRABODY

This is the full body plot twist.

Hydrafacial tech for the back, booty, arms, chest or wherever you're breaking out, bumping up, or just trying to be taken seriously in a backless dress.

For skin that's seen some things and refuses to be subtle about it.

Ideal for:

- **Bacne, chest spots, folliculitis and general chaos**
- **Summer skin that wants to come out of hiding**
 - **Gym-goers with no interest in fungal fame**
 - **Keratosis pilaris on arms or booty**
- **Skin that's been side-eyeing sleeveless tops since 2019**

60-MINS

SCALPHEALTH

Your scalp deserves more than dry shampoo
and passive aggression.

Keravive exfoliates, unclogs follicles, floods them with
hydration and nutrients, and sends a gentle
“please stop falling out” message to your hairline.

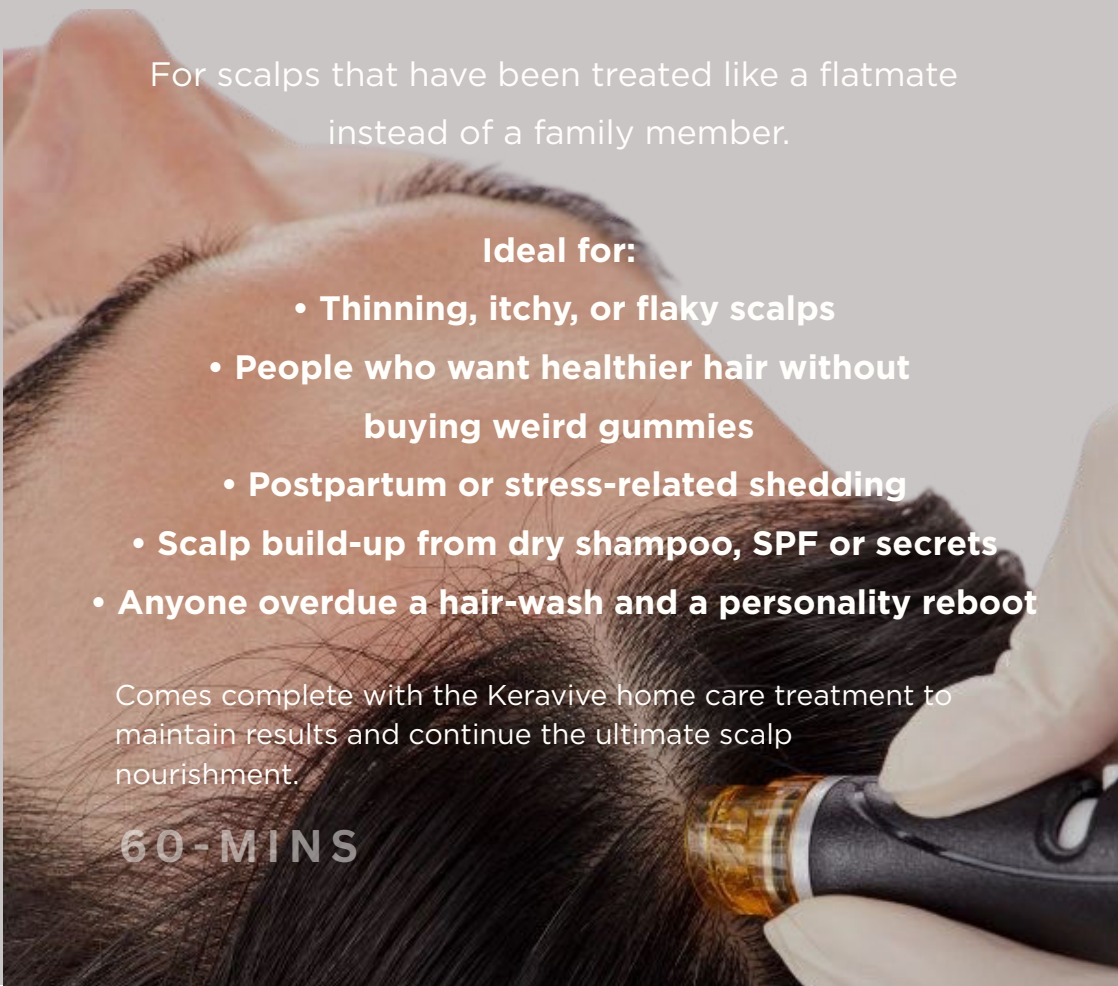

For scalps that have been treated like a flatmate
instead of a family member.

Ideal for:

- **Thinning, itchy, or flaky scalps**
- **People who want healthier hair without buying weird gummies**
- **Postpartum or stress-related shedding**
- **Scalp build-up from dry shampoo, SPF or secrets**
- **Anyone overdue a hair-wash and a personality reboot**

Comes complete with the Keravive home care treatment to
maintain results and continue the ultimate scalp
nourishment.

SKIN EXCELLENCE

Rooted in medical expertise.
Precision, safety, and sophistication;
experience the pinnacle of gold
standard care.

keravive®

Your scalp's been quietly crying for help – you've just been too busy to hear it.

Flakiness, itchiness, tightness, shedding? Most people think it's just stress or hormones (and sometimes it is) – but more often, it's your scalp being ignored while the rest of your skincare gets a 12-step routine.

Keravive clears the build-up, hydrates the follicles, and resets the whole environment your hair grows from – kind of like a spring clean for your scalp, minus the trauma.

You'll notice the difference after one treatment: less tightness, less irritation, and hair that starts to feel fuller and more rooted.

Ideal for:

- **Itchy, flaky, irritated scalps (even if you've normalised it)**
 - **Postpartum or stress-related shedding**
 - **Anyone addicted to dry shampoo and denial**
- **Tight scalps that feel one email away from snapping**
- **People who want thicker hair without buying another supplement they'll forget to take**
